

REMARKS

The present reissue application is believed to be in condition for allowance at the time of the next Office action.

The applicants seek reissue of U.S. Patent No. 6,267,765. Included with the present preliminary amendment is the entire specification, including the claims, furnished in the form of a copy of the printed patent, in double column format, each page on only one side of a single sheet of paper, in accordance with 37 CFR 1.173(a)(1). Applicants also include a clean copy of each drawing sheet of the printed patent at the time of filing of the present reissue application, in accordance with 37 CFR 1.173(a)(2).

The applicants hereby offer to surrender the original patent whose reissue is sought. Applicants further agree to provide either the original patent or a statement that the original is lost or inaccessible, if that is the case, prior to allowance.
